

# ASEF Classroom Network #ASEFClassNet Online Collaboration 2017

## Proposal

The [ASEF Classroom Network](#) provides opportunities for online collaborative learning and intercultural exchanges between students and teachers of secondary, high and vocational schools across Asia and Europe.

Since 2001, the Online Collaborations have been a core part of the ASEF Classroom Network's activities, which seek to enhance:

- intercultural understanding
- knowledge-sharing between students and teachers in Asia and Europe
- teamwork
- use of ICT

This is a template for teachers who wish to propose an Online Collaboration, and invite other teachers from schools across Asia and Europe to join their activity. The closing date for the submission of the new proposals is **31 December 2016**.

Based on the four goals of the ASEF Classroom Network, the 6 most outstanding Online Collaborations will receive an Award at next year's annual ASEF ClassNet Conference.

Thank you for your interest, and ASEF looks forward to learning more about your proposal.

### 3. School description (Max. 30 words)

The school's mission is to develop the character of each student by providing superior quality education with a global perspective, fostering leadership and creativity. The school provides an optimal learning environment for every student using a variety of proven instructional methods and assisted technology tools.

### 4. Description (Max. 200 words)

Food gives universal experiences which help us to build strong bonds with people across the globe. The project is a sequel to **Grandma's Kitchen - Our Recipe Book**. The main objective of this Online Collaboration is to create an online recipe book which is a collection of traditional recipes contributed by the students of Asian and European schools. Through this Online Collaboration, the students will bond with their grandparents while learning about the traditional food cooked at home. They will compile the authentic recipes of these popular dishes and also explore the cultural positioning of each dish. The participating students will cook these cuisines in their kitchen and share the pictures and recipes with other members online

The participating schools will be assigned to groups comprising Asian and European schools. Member students of the group will interact with one another and cook traditional dishes belonging to each other's country. Pictures and videos of collaboration will be shared on a common platform. The diverse recipes will be grouped under the categories - Salads, Soups, Starters, Main Course Dishes and Desserts. The e-book will be a collection of recipes which will take you right back to Grandma's kitchen table where every meal is a labour of love. Through this collaboration, the students will learn to appreciate the culinary heritage of their own country as well as to respect the food, culture and traditions of other countries. In addition, students will learn ICT skills to enhance their creative abilities in a technologically advancing world.
